**Re: Registration of packaging material for a direct contact with food**

Related to certificate of Analysis no. 8812201843

1. We state here that PE articles manufactured by "PBI", Israel are suitable for a direct contact with aqueous, acidic and oily food products at 40° C and below for prolonged storage.
2. The present certificate assures that the product is in compliance with the European Regulations such as 2002/72/EC and its amendments and with Israel Standard 5113.
3. The present registration is valid for 12 months.
4. This document alone is not sufficient for release of goods from the customs.

Sincerely,

Benny Braun

Head of The Chemistry Section

 Benny Braun M.Sc.
